BACKWOOD CREATURES | Living legends

Here we go with the 2nd album by germany's best!! Hailing originally from the Hinterlands of R&R in the north of germany..they now moved to cologne to conquer the world..! Or to hang out "at the sonic ballroom³...the place to be!! These 12 songs show the BWC more rock'n roller than ever, still catchy as a lollipoppe, but with more balls..learning their lesson of early Power Pop (e.g.THE REAL KIDS) but still mix in some BEACH BOYS style harmonies!! Excellent coverart showing the truth...THE CREATURES posing with the kings of Rock'n Roll...linenotes by Kevin Aper...! The cover shows `em with a golden record..and in a real world..they really would do..in no time!! Do your part to let the guys get a golden record soon..buy a copy of this...Thanks!!!

They had their challenge to do the same thing that happened in the 70's. The same thing that they always did...give music a kick ass fuel injection, save Rock'n'Roll. Hell yeah...Raw Power Rock'n'Roll. And there it is: The first DETROIT RHINE DELTA ROCK & ROLL Band.

BIG CHIEF | 500 Reasons/Drive It Off

Hard rocking sounds from ex-Necro Barry Henssler and crew. "Drive It Off" has a funkier back beat than most of their material and a spacey middle section might take you by surprise, but the searing guitars come to the rescue. The flip is a more ??typical?? barnburner!

BIONIC ELBOWS | s/t

Yep, dies ist das gewaltige Debütalbum der BIONIC ELBOWS! In Cristoph Raths (CELLOPHANE SUCKERS) Rausch Raum haben THE BIONIC ELBOWS, Stanley (vox), Hareström und Paradise (guitars), Ponderosa (bass), Aerobic (drums) und Besskar (grinding organ) eine grossartige Garage Rock Langspielplatte pro- und reduziert. Ein hyperaktiver, schneller Bastard irgendwo zwischen ZEN GUERRILLA und WATTS. Diese jungen Delinquenten kann man zweifelsfrei zu jedem Kapellenwettbewerb schicken, ohne dabei schlecht auszusehen. Die BIONIC ELBOWS klingen, als hätten die Youngs niemals ihre Garage in Down Under verlassen. Und natürlich niemals ihren neuen Sänger getroffen ... RocknRoll Gitarren galore, eine wichtige Rhythmusgruppe, Orgelsound wie damals, als der Vogelmann noch flog (???, der Lektor) und ein Sänger, der an die besten Tage Mark Arms mit THE MONKEY WRENCH erinnert. Vinyl only!

BLACK SUNDAY | Tronic Blanc

Kenner werden beim Albumtitel schon hellhörig, denn "Tronic graveyard" hei?t das kleine Aufnahmestudio von Alicja Trout, sonst hauptberuflich bei den Lost Sounds. Black Sunday ist nun ihr neustes Solo Projekt, das garantiert wieder für Verwirrung sorgen wird. Futuristisch anmutende Keyboard Eruptionen, laute New Wave Sounds, ausufernder Art Rock, wunderschöne Pop Harmonien und treibender Synthie Wave treffen auf einander - dazu Alicja's markanter Gesang und das Händchen für tolle Weirido Songs. Stücke wie das eingängige "Next girl detour" erinnern dagegen an eine Mischung aus den Epoxies und Revillos und gehören zu den absoluten Hits auf "Tronic blanc"! Nicht umsonst erscheint die Platte auf Dirtnap...

BOMBSHELL ROCKS | The Conclusion

Auch wenn den Schweden nach den personellen Umbesetzungen die ganz großen Hits alter Tage etwas abgehen, schaffen sie es dennoch auf ihrem mittlerweile vierten Longplayer das musikalische Rezept der "Streetart gallery" bzw. "Cityrats and alleycats" konsequent fortzuführen. Auch "The conclusion" wird dominiert von diesem unvergleichlichen, rauen, und trotzdem höchst melodischem Street Punk a la Rancid. Kaum eine andere Band wird bei einem Blind Date Test eher wieder erkannt als Bombshell Rocks - und das ist schließlich auch eine Leistung! Alles in allem 13 räumige Hymnen zwischen herrlich angespisster Street Fighter Attitüde und melancholischer Lagerfeuer Romantik.

COLUMBIAN NECKTIES | Get it for you...

Although Columbian Neckties have 3 albums out on the German label Sounds Of Subterranea (Takeaway from 2005 being the latest) and singles out on many different labels in Europe, they never had a release on a label in their home country. So Get It For You is their first official Danish release that includes two exclusive songs recorded with this specific release in mind. Get It For You is all about ferocious guitar playing, pulsating basslines and pounding drums in the best tradition of early The Saints and New Bomb Turks with singer Jeppe Escobar screaming his lungs out on top. It is backed by But She Was Big that underline why Columbian Neckties is the most underrated kick ass punk rock band in Denmark! Or Europe for that matter!

Art.No.:007864 - **7"** (Bad Afro | 2005) **4,50 EUR**

COLUMBIAN NECKTIES | Takeaway

Die Befürchtungen, daß die Columbian Neckties den Weggang von Bassist Simon und Schlagzeuger Slambert nicht verkraften könnten, haben sich ja spätestens seit den letzten beiden Touren der sympathischen Dänen als völlig haltlos erwiesen. Die neue Rhythmustruppe Thies und Anders powert ebenso gnadenlos nach vorne und die Qualitäten von Sänger Jeppe und Gitarrist Henrik dürften sowieso hinlänglich bekannt sein! "Takeaway" ist nun der dritte Longplayer und damit stehen die Vier vor der schwierigen Aufgabe sich mit den beiden großartigen Vorgängern "Abrance!" und "Why change your moves" messen zu müssen. Was ihnen aber zum Glück mühelos gelingt!! Von Verschnaufpausen, Auszeiten oder gar noch schlimmer - "musikalischer Reife" - ist hier nichts zu spüren. Stattdessen wird wieder vom ersten Ton an Vollgas gegeben - die Ein Mann Gitarren Armee Henrik feuert die Riffsalven in altbekannt genialer Manier aus den Boxen, dazu singt Jeppe wie besessen von seinen persönlichen Obsessionen und die beiden Bass / Schlagzeug Frischlinge treiben den Sound wie gesagt gnadenlos voran. Mir fällt spontan keine Band ein, die wirklich dermaßen konsequent IMMER 100% Power gibt und dabei trotzdem noch über erstklassige Songs mit enormen Hitpotential verfügt. Wie ein Amalgam aus den besten Elementen der Saints, New Bomb Turks, Dictators, Devil Dogs, und Nervous Eaters - dabei aber immer völlig eigenständig, großartig und genial!

Art.No.:000719 - **CD** (Sounds of Subterranea | 2005) **12,00 EUR**

Art.No.:001635 - **LP 180gr** (Sounds of Subterranea | 2005) **10,00 EUR**

COLUMBIAN NECKTIES | Why change your moves?

Yes!! Die neue Columbian Neckties ist mal wieder ein Killer! Direkt der Opener (gleichzeitig das Titelstück) rast über einen hinweg wie ein Hochgeschwindigkeitszug im Tiefflug. Der Sound ist gegenüber dem Vorgänger um einiges aufgespeckter und ebenfalls neu sind diese fieses Hardrock Riffs in klassischer Rose Tattoo bzw. AC/DC Tradition, die einem in einem Affenzahn um die Ohren geblasen werden. Wer jetzt allerdings meint die Dänen würden auf abgefahrene Züge aufspringen irrt gewaltig. Das ist kein Skandinavischer Action Rock, sondern höllischer Turbo Punk'n'Roll, der dermaßen konsequent im roten Breich fährt, daß einem ganz Angst und Bange werden kann. Die altbekannten Einflüsse - von frühen New Bomb Turks über Devil Dogs und Saints bis zu den Dictators - sind geblieben, aber das ganze ist noch mehr auf den Punkt, präziser, lauter, übersteuerter, manischer, gewaltiger,...

CRIPPLES | Dirty head

From Seattle, WA, THE CRIPPLES open up every single sore, every ugliness, take modern life and cast it into synthesized garage punk. Call it a Neuromancer garage aesthetic. This record's got REAL catchy songs and a stiletto-spiked garage attitude. They've got electronic synth sounds that totally annihilate the stock presets that whimper on every other "band-with-a-keyboard" record. Sensitive DEPECHE MODE this ain't. THE CRIPPLES are on the SCREAMERS side of the galaxy. Still don't get it? Ok, imagine if ADD N TO (X) played pop songs. Imagine if JOY DIVISION played Freedom Of Choice. We've got yer REAL drums, REAL bass, and two guys with keyboards strapped around their necks! Featuring hard-hitting, genre-bending tunes - starting at WIRE and DEVO, driving through PUSSY GALORE and early MODERN LOVERS - this album blasts white noise to the surface in such a way that even GUITAR WOLF would be envious.

DAS KLOWN | Antidote

"Antidote" ist ihr Album, dessen CD-Version in den USA auf Skunk Rec. erschienen ist. Musikalisch hat sich bei DAS KLOWN erfreulicherweise nicht viel getan: auch hier spielt die Band aus Los Angeles wieder schön altmodischen Hardcorepunk, schnell, snotty und aggressiv - und durch AJs Gesangsstil auch immer wieder und immer noch an die DEAD KENNEDYS erinnernd. Ach ja, mit "This land" covern die Kalifornier hier den alten ZOUNDS-Song. Wie immer gut.

DEADBEATS, THE | Long hard nights

The Deadbeats have specialized their style round Traditional Rock with a lot of influences from the 70's. I will call their style Groovy Traditional Rock with a dose of everything from Hellcopters, The Angels, Lynyrd Skynyrd and Kiss. What impress me most with releases like this, is that it sounds so real and down to earth. All kinds of technical equipment is put a bit on the side, and with vocals, drums, guitars, bass and hammond, The Deadbeats prove that it's still possible to make quality rock music.

DEEP REDUCTION | 2

Radio Birdman's main men Deniz Tek (guitar) and Rob Younger (vocals) team up once again! This time with Younger lending his vocals to Tek's new project- Deep Reduction. The lineup also features Jack Chiara and Clyde McGeary of The Stump Wizards and Jonathan Sipes on bass guitar. This is the follow up to the band's 1999 S/T debut on Get Hip Recordings. Tracks range from hard rock to sixties style garage/psychodelia to raw electric blues. Let's pray for some live performances so we can be haunted by Rob's tantalizing vocals and Deniz's razorsharp guitar riffs...

DEMONICS | Ritual on the beach

THE DEMONICS all new 3rd full length record "Ritual On The Beach" is dripping with tremendously catchy melodies, upbeat dragpunk riffs and references and to the Californian lifestyle. It's a evil JAN & DEAN beach party gone wrong with guest appearances by "Wholly Smokes" (MIKE FOX of the DWARVES fame) and legendary underground garage rocker NIKKI CORVETTE doing a duette with Russ on a demonic version of her song "Girls Like Me". The album is an unpretentious blast down the waves & highway to hell!The unbelievable artwork matching the theme is done by Montreals most famous underground artist DIRTY DONNY. When Russ isn't burnin' out in his cherry'69 metallic green Super Bee, he's toes to the nose on a six footer down at Pacifica Beach or bombin' the hills on his Sector 9 board. This is the perfect soundtrack for anyones summer.. SURFS UP MOTHERFUCKERS !! SO GET IN

DRUNK | The company tie

Drunk gründeten sich 1996 in Oslo / Norwegen als Nachfolgeband der legendären Hardcore-Punk-Bands So much hate und Life, but how to live it?. In den folgenden Jahren waren sie unzählige Male in Europa auf Tour und veröffentlichten 4 Singles und eine Split-LP. Danach wurde es ruhiger um Drunk, ehe sie Anfang 2005 erneut durch Europa tourten und mit ??The company tie?? endlich ihren ersten Longplayer vorlegten. Die CD-Version erschien auf dem bandeigenen Label ??This Bastards Voice??, die Vinyl-Version erscheint jetzt exklusiv auf Twisted Chords. ??The company tie?? bündelt all das, was Drunk zu einer so außergewöhnlichen Band macht: gro?artige Melodien, eine druckvolle Stimme und unglaubliche Power in den Songs. Drunk sind vielfältiger und abwechslungsreicher geworden, ihre Einflüsse gehen von 80er Hardcore über klassischen Punkrock bis hin zu 77er Power-Pop-Punk a la Buzzcocks. Technisch versiert, zwischen Sing-a-longs und kurzen, direkten Passagen ist alles dabei und harmoniert bestens zusammen. Dazu kommen vielfältige und nachdenkliche Texte zwischen Persönlichem und Politik, die dabei jede Menge Interpretationsspielraum lassen. 12 fett produzierte Songs von einer sympathischen Band, die auch nach fast zwei Jahrzehnten Punk noch ihre DIY-Spirit und Idealismus bewahrt hat und genau weiss, wo sie steht? Die LP-Version kommt mit sehr schönem Coverartwork und Inlay inklusive aller Texte, Linenotes und Fotos!

GREY SPIKES | Year zero

The farewell album of this Los Angeles punkrockband. If you dug their D.Derby 7" (& their other releases), you'll find plenty of your liking here, but there's also some more balanced songs, with maybe a Minutemen touch. This is the band of guitarist Tony Fate, who previously played in the early 80's punkband the Sins & these days in the Bell Rays. The Bell Rays have actually covered several Grey Spikes songs from this album on their own records ("stupid fuckin' people" & "chemical"), so here's your chance to check out the originals.

GUERRILLA | A call to arms

Der Titel sagt alles über die 13 neuen Songs von Guerilla. Vor 3 Jahren als Agit-Prop-Projekt gestartet sind Guerilla nach ihrem Debut ??Virus Macht?? nun endlich zu einer richtigen Band gereift und liefern mit ??A call to arms?? ein Hammeralbum ab! Songtitel wie ??Chosse your side??, ??Fight the power?? und ??Never be quiet?? sagen alles und sind ein beständiger Schrei nach Veränderungen. Die Band hat sich extrem weiterentwickelt, ist musikalisch gereift und harmoniert wesentlich besser als auf ??Virus Macht??. Die Songs sind wütender, schneller Hardcore-Punk mit jeder Menge Melodien und einprägsamen Refrains und Chören mit einem prägnanten und mitrei?enden Sänger. Die nahezu perfekte Mischung aus Melodie und Härte gepaart mit hochpolitischen Texten (inzwischen vollständig in englisch!) jenseits von platten Parolen.

HIGH TENSION WIRES | Send a message

Die High Tension Wires setzen sich zusammen aus ehemaligen bzw. noch aktuellen Mitgliedern der Reds, Marked Men, Riverboat Gamblers und Chop Sakis und sie haben es geschafft mit "Send a message" in nur knapp 20 Minuten ein nahezu perfektes Punk Album einzuspielen. Der Sound erinnert natürlich an die Hauptbands der einzelnen Mitwirkenden (und dabei ganz speziell an die Marked Men!) und dürfte Fans der Briefs, Dickies oder auch früher New Bomb Turks ebenso begeistern wie ältere Semester, die noch immer liebend gerne Platten von den Buzzcocks oder Undertones auflegen. Dazu muß allerdings gesagt werden, daß die Produktion schon eher Lo-Fi gehalten ist und schön rau und bratzig im Stile aktueller Rip Off Platten aus den Boxen tönt.

KATZENSTREIK | 4

"Katzenstreik are 4 Individuals" schrieb die Band im Infosheet zur letzten Platte "Solves your problems". Als Individuen betrachtet und respektiert zu werden ist vermutlich der Grund, warum die Band nie an Inspiration, Diskussion und Entwicklung eingebü?t hat und sich ständig den Weg zur ständigen Weiter- und Fortentwicklung als unbedingtes Ziel offen hielt. Nun kommt hin zu, dass Bolle (Gesang, Gitarre), Tobi (Schlagzeug, Trompete, Vibraphon, Gesang), Hagen (Gitarre, Gesang), Jörg (Bass) seit zwei Jahren an 4 unterschiedlichen Orten in mehreren Ländern leben, was neben der Individualisierung auch eine räumliche Isolierung mit sich bringt und das ganze Bandgefüge verändert. Die Band hält diese auf einer neuen Platte fest

MHZ | Harness the power

Exclusive vinyl version of the Flying Bomb cd release. Mhz is a powertrio from Michigan including Andy Claydon (Flying Bomb co-label boss & ex-Monarchs) & Don Blum (Von Bondies) mixing up the best parts of the Ripoff sound with the Amrep sound, inserting healthy doses of garage & even including a couple of choice instro's. Imagine a mix of the Chinese Millionaires & Tar or a noise/punk version of Man or Astroman? "Wow! Have you ever heard a punk song with a Led Zepplin "whole lotta love" style extendo noise part? Mhz has accomplished that in a three minute tune! But don't think that pigeon holes their sound. They take on all sorts of styles, giving each song it's own identity. They tend to deliver punchy, rhythmic riffs with a Nomeansno styled funky bass. Yeah, that Nomeansno influence comes through, as does that of the Minds and the Minutemen. This excellent disc features all their recordings from 2000 and 2001. Get it!" (HM) Maximumrockroll

MR. BURNS | Where is your freedom

MR. BURNS strikes back! Mit ihrer Mischung aus Punk'n'Roll und Streetpunk legen uns die Jungs aus dem Norden ihren neuen Lonplayer vor. Nach dem netten Intro "You're an asshole, you're an asshole and you're an asshole" geht es hier flott, rotzig und energiegeladen mit "Get off my back" los. Die Mischung aus Punk und melodioesem Hardcore erinnert an GOOD RIDDANCE gepaart mit aelteren MUFF POTTER und zieht sich sehr gekonnt durch die gesamten 15 Songs, die stellenweise vor geilen Gitarrenparts und mehrstimmigen Refrains nur so strotzen. Im Gegensatz zu den persoenlichen und sozialkritischen Texte hat man sich mit der Biertrinkerhymne "Hops and barley" von WAT TYLER eine schlichtere Coverversion ausgesucht. Ausserdem gibt es mit "Surfing wallace" ein geschmackvolles Intro. Kommt im Klappcover.

PHOENIX FOUNDATION | Falling

Was sich auf der letztjährigen Stonehenge 7" abzeichnete, findet hier seine Bestätigung: The Phoenix Foundation lassen es um einiges melodischer und ruhiger angehen als auf der Debut 10". Entstanden ist so eine zeitlose Mischung aus Punkrock, Gitarrenpop und Posthardcore - leidenschaftlich, mitreissend und mit dem Herz am rechten Fleck. Wunderbar treibende, melancholische Songs mit leicht angerauhten Gesang, Akustikgitarren und Melodien ohne Ende. Dezent werden auch Streicher und eine Mundharmonika eingebaut, was dem ganzen eine besondere Note und den letzten Schliff gibt. Wer ??Candy Apple Grey" von Hüsker Dü oder Bob Mould's ??Last Dog and Pony Show" liebt, der sollte hier zugreifen und sich Hits wie ??When Will We Ever Learn", ??To A Lost Friend" oder ??Falling" nicht entgehen lassen.

PLASTIQUES | 101

Good rockin' tonight with this new swedish Garage-Capella. Think of a more Garagerock orientated version of the MANIKINS along with your favourite bands from the 60s all stirred and cranked up! They deliver a pounding mixture of Beat-ridden and shakey Punkrock and modern 60s-Garage-Sound with a lot of stirring melodies, loud guitars, catchy hooklines and a jock full of coolness. From the moment you hear that classic riff of 'All day all night' until the last note of that famous tune you are lucky to enjoy as a hidden CD-only bonus-track, the PLASTIQUES capture you with powerful and ass-shakin' songs like 'Let's cheat', 'Keep asking', 'I can't stop', 'You big dummy' or the fast 'Just me and you', as well as with more soulful and groovy stompers like 'It starts with a kiss', 'Fool for you' or 'I better stop'. Hell, the latter could even hit it big, what a hit! Produced and recorded by Mr. Paul

Grace of DUMBELL/DAMAGERS. Comes as a Digipack with a RAMONES-memorial leatherjacket artwork 'cause of the band's spiritual connection towards all three dead members. The day of the band's first rehearsal Joey died, they had their first gig when Dee Dee called it quits and during the recording of this album Johnny said goodbye.

PREACHER'S KIDS | Wild Emotions

And, it??s about zero bones short of classic, baby. Entitled Wild Emotions, the Preacher's Kids recorded this three-guitar battering ram with Bruce Watson (producer of T-Model Ford, R.L. Burnside, and others) at the Money Shot out in the wilds of Water Valley, Mississippi. The sounds Tyler Keith and his band of fierce rock n?? roll acolytes laid down out there in the sticks are jaw-droppingly great. Primal, raw and unaffected, Wild Emotions is plugged into some brilliant psychic wall-socket in which the band??s influences -- The Flamin?? Groovies, The Real Kids, The New York Dolls, Mott The Hoople, Jerry Lee Lewis, The Chocolate Watchband, The Sonics, The Faces, and a gazillion punk, garage, Merseybeat, and psychedelic bands all effortlessly combine into one gleaming, white-hot silver rail of pristine electric rock n?? roll heat. It??s feverish. And, it??s cool. And, best of all, Tyler Keith??s songs are righteous and true and achingly alive. Their blast-furnace version of "Summertime" by Boston punk legends Unnatural Axe is just as incredible, too. Here is a testament to the power of the beat! Here is the once and forevermore rock and roll beat! Writ large, played loud, cut hot, and lived tough, if this record doesn??t get you up on your feet or down in a bottle again, then, mister, you??d just better go back to those Dan Fogelberg records in the back of your closet, ??cause it just ain??t gonna happen for you. Can you dig it? (The Preacher??s Kids features ex-Neckbones guitarist and singer Tyler Keith accompanied by drummer Frank Couch and bassist Laurie Stirratt, both ex-members of the legendary Americana/alt-country band Blue Mountain, along with fave rave guitarists and volume scientists Pat Cochran and Dru Dunaway.)

PROJECTILES | Hanging out

For many, many years we were trying to track down the original album recordings of "Hanging out", this real late 80?s teen-punk masterpiece by one of the east-coast?s best kept secrets, THE PROJECTILES and finally we got our sweaty hands on them. This album which was supposed to be released on VOXX, never saw the light of day and this is a real shame as it?s certainly one of the highlights of the 80?s garage revival. THE PROJECTILES came from Rochester, NY, the same little town THE CHESTERFIELD KINGS were hangin? around, trying to teach their neighbours the real meaning of pure rock?n?roll and not unlike the KINGS they were totally devoted to all the mindblowing garage-punk sounds of the 60?s. Some of the members later joined such great bands like 1313 MOCKINGBIRD LANE, SUSAN & THE SURFTONES and the RIVIERA PLAYBOYS. After two brilliant 45s on JARGON RECORDS they recorded this whole album filled with incredible organ-drenched, fuzz-punk jewels you need to hear to believe it. Their originals could?ve been taken from any of those classic 60?s punk comps. and their well chosen cover versions just simply blow you away in all their authenticity. Their historical importance is unquestioned and that?s why we?re really proud to bring you this long lost nugget of pure 60?s garage brilliance and hope to give back the band at least some of appreciation they really deserve.

RANDY | Randy the Band

Ja, Randy - keine Ahnung wie sie's immer wieder schaffen, aber mit jeder Platte machen sie eine kleine Veränderung durch, erfinden sich quasi neu und klingen dennoch unverkennbar nach Randy. Auf "Randy the band" geht's wieder noch stärker in die Pop Richtung als auf den ohnehin schon fantastischen Vorgängern "The human atom bombs" bzw. "Welfare problems". Aber das nicht im belanglosen Plastik Pop Sinn, sondern viel eher bezogen auf die super eingängigen Hymnen, die sich unter den 15 neuen Songs finden. Der Opener "Punk rock high" legt direkt mit absoluter Ohrwurmgarantie los und auch die folgenden Songs gehen rein wie nichts: So z.B. "Better than art" (mit einem Dickies ähnlichen, perfekten mehrstimmigen Refrain), das Misfits / Danzig inspirierte "Evil" oder der zwischen Bombshell Rocks / The Clash zitierendem Street Punk und lupenreinem Power Pop pendelnde Kracher "Bahnhof Zoo". "Nothing on me" klingt dann wieder wie eine Mischung aus den Dickies und Dead Kennedys und spätestens wenn's bei "I raise my fist" im hymnischen Refrain heißt "I'm still vegetarian, anti-American / I'm still socialist, and I still raise my fist / I'm still anarchist, I'm still atheist and I'm still pissed / because some things they enlist I raise my fist", wei? man, da? hier was ganz gro?es unterwegs ist!! Für den perfekten, druckvollen Sound hat übrigens wieder Hives Produzent Pelle Gunnerfeldt gesorgt, so da? "Randy the band" wirklich in allen Belangen abräumt!!

Three songs that blend an energetic pop/punk sound with several influences from the past 20 years or so. "Can't Forget About You" sounds a bit like Husker Du without the heavy-duty guitar stylings. "Excuse Me" features a Ramones feel with more pop punk feel while "Outta My Head" fits the mold of a classic pop-punk number.

REAL BAD NEWS | Black + white

Here's the latest and greatest thing to come out of Sacramento since I don't know what. It's this mystery band called THE REAL BAD NEWS with their debut album "Black & White & Red All Over". This act, which reminds us so much of the legendary UNTAMED YOUTH, can really lay down the 60's frat thing with a lot of feeling and guts. They were discovered by Deke Dickerson while they opened for him in California's capital city. Give a listen - it's straight forward rock'n'roll with a decided bent toward the pre-BEATLES sixties (justdig all that glorious organ and tenor saophone). And man, they even have their own theme song. Not much is known about the band, but if you listen to the brilliant vocals, you seem to hear Deke Dickerson singing. Hmm, is there maybe even a closer contact between him and the band, than we all thought?! Who know's. Fact is, that the album got engineered and produced by Deke Dickerson and that he's written the liner notes too, so let's listen to what he's saying about them. " In the last couple of years, "garage rock" has made the headline with such acts as the WHITE STROKES. I haven't really taken a fancy to any of these bands, personally. To me, they just don't have any HEART or any SOUL. I had just about given up on this "garage rock" phenomenon until that fateful night at Old Ironsides in Sacramento, California, when a band called THE REAL BAD NEWS open up for me. These guys were awesome! They were a real

garage band, but they weren't a cookie-cutter-cover band like those 80's Vox Wig TM bands. They wrote great original songs, like "We're the Bad News", "Don't get me wrong" and "Cast the fist stone". And when they did do a cover, they would take a great song like Ray Charles' "Leave my woman alone" and turn it into a raving garage classic. They even took Faron Young's country classic "Hello walls" and made it into a RIVIERAS-style organ frat pounder! These guys are geniuses! I decided to take this group of miscreants into the studio, to claim their own slice of the "garage rock" pie. If those guys don't hit it big, I'll eat my hat! They have all the necessary ingredients - Nate Forrets's excellent singing, Henry Dantill's blazing guitar work, Leo Sutter's harmonies and solid rhythm guitar and of course the secret weapon, the "cuteness factor" of Billy "the Kid" Lakeson that is sure to make these guys the next

Nachdem mit der Thrash Legende Epileptic Terror Attack Schicht im Schacht war, haben sich die Punks aus Umea entschlossen noch weiter zurück zu den Wurzeln zu gehen, um einen großartigen früh 80er Hardcore-Punk Sound zu kreieren. Mit einem soliden Hardcore Hintergrund haben sie sich mächtig viel Einfluss von frühen LA Punk Bands geholt, um einen rohen, energiegeladenen und dennoch eingängig fesselnden Sound zu schaffen. Nach zwei mehr als überdurchschnittlichen 7??s, die bereits jetzt Kultstatus genießen, kommt hier endlich das Full Length von Regulations, das, um es mal skandinavisch zu beschreiben, irgendwo zwischen den besten Elementen von Kopenhagen Bands wie Amdi Petersen'ss Arme, Young Wasteners und No Hope For The Kids und dem Umea Sound a la DS 13 und ETA liegt. Rockt!

RIFU | Dead end street

Rifu haben mit ihrer 2001er CD/LP "Revolutionary tango (the slavery dance)" wie eine Bombe eingeschlagen. Es folgten unzählige Live-Konzerte und Touren durch ganz Europa, bis schließlich Mitte 2002 Gitarrist Thomas die Band verließ. Nun sind Rifu mit neuem Gitarristen zurück und toppen alles bisher dagewesene. "Dead end street" strotzt vor Wut, Kraft, Energie und unbändiger Power, technisch noch versierter, vielseitiger und besser, textlich weiterhin hochpolitisch, radikal und kompromisslos. Rifu komprimieren die geballte Wut ohne dabei in Plattheiten oder tausendfach gehörte Parolen abzurutschen. "Dead end street" schafft den perfekten Querschnitt zwischen melodischen, eingängigen Punk-Stücken und schnellem, treibenden und derben Hardcore, Einflüsse von Bands wie Propagandhi oder Refused sind nicht zu überhören und trotzdem kopieren Rifu nicht einfach, sondern überzeugen mit ihrem eigenständigen und vielseitigen Sound. Rundum eine großartige Scheibe mit gelungenem Artwork, intelligenten Lyrics und unglaublich powervoller Musik! Revolution rock continues!

RIVIERA PLAYBOYS | Ambassadors of rock'n'roll

It's time to introduce you to the new ambassadors of rock'n'roll and believe us, we're talking about the real thing! Here comes this band that has captured the musical phenomenon which came creeping out of millions of garages from the late 50's to the mid 60's and carries it forward into today's dreary world of lame mainstream rock and inedible lo-fi bullshit. Calling Rochester, New York their home, THE RIVIERA PLAYBOYS represent the epitome of a new breed of 60's garage rock'n'roll combos. The band that includes ex members of THE CHESTERFIELD KINGS, THE PROJECTILES, THE INSIDERS and SUSAN & THE SURFTONES delivers timeless music that has a powerfully menacing quality, and is best described in their own words as "raw, electrified r'n'r!". Driven by fuzz & reverb drenched guitars and wailin' organ sounds, all their songs got this distinctive primal approach, but the music still has this veritable melodic content and amazing vocal harmonies. They guide us through their wonderful own little musical world, a place where you can still find those primitive garage-punk rituals done by prehistoric cavemen banging big rocks together, a place where people still wiggle to the classic sixties beat, a place where the beauty of twangin' folk sounds is still respected, a place where people don't have to be ashamed to be devoted to traditional r'n'r. If you can't get enough of all the "pebbles" and "nuggets" from the roaring 60's and you adore the early CHESTERFIELD KINGS and the MAHARAJAS, you certainly don't wanna live without this masterpiece of the "ambassadors of rock'n'roll", the mighty RIVIERA PLAYBOYS!

SCHWARZEN SCHAFE | Auf der Suche nach dem Licht

Die SCHWARZEN SCHAFE haben diesmal soviel Zeit, Arbeit, Kreativität und Liebe zum Detail in eine Platte gesteckt wie nie zuvor. Mal spielen sie schnellen Up-Tempo-Pogo-Punk, dann wieder nachdenklichen Punkrock mit intelligenten, unkonventionellen Texten. Sehr positiv macht sich bemerkbar, dass Jana von HEIMATGLÜCK nun Armin am Gesang unterstützt, was einen guten Kontrast darstellt und zur Vielfalt der Songs beiträgt. Und endlich haben die Düsseldorfer Idealisten u. unerschütterlichen Szene-Aktivisten auch einen guten, druckvollen Sound. Die Erstauflage der LP (555 Stück) kommt in farbigem Vinyl!

SECONDS | Y

originally released a a CD-Only on 5 RUE CHRISTINE, we are happy and proud having released this wonderful record on vinyl! The SECONDS are a threepiece-band from New York City, being on the forefront of the Neo-No-Wave/Post-Punk scene, along with bands like RADIO 4, LIARS or EX MODELS - and actually guitarist Zach is now in the EX MODELS as well, while drummer Brian is also a member of the YEAH YEAH YEAHS! Their incredibly tight and frenetic proto-punk, with buzzsaw-like guitars, a punching bass and pounding drums, reminds of the GANG OF FOUR, Richard Hell, DEVO and MINUTEMEN all put into a blender - and their cover-version of MADONNA's "Burning Up" is simply awesome!

SEWERGROOVES | Saturday night, tonight we're...

Straight from Stockholm "Rock City" here are The Sewergrooves. These disciples of all things heavy, pound the graves of The Wipers, early Urge Overkill and Thin Lizzy then proceed to wash it all down with a curdled cocktail of motorcity septic tank backwash. But this trip ain't just about ragged ass raw power. Shecky, THE SEWERGROOVES also dish out ample gobs of both melody and hooks with their thunder, and thus, not surprisingly have been compared to their high profile allies in all things rock, The Hellcopters, an observation which we feel has much more to do with mere geography than true topography (even though BOTH machines use to share skin basher, Robert 'Copter).

SILVER TONGUED DEVIL | Red-Eyed And Tongue-Tied

Boiling out of the steel mills and storm drains of Pittsburgh, Silver Tongued Devil now brings their high energy, over the top rock roll to the masses! Arising from the ashes of Eviction and Get Hip recording artist Pilsner, these maniac rockers draw their volatile style from the classic sounds of The Stooges, The Ramones and Motorhead. Mix that with the newer rock sounds of New Bomb Turks and The Hellcopters and STD has it's own blend of asphalt burning madness. Five bad ass, beer-swilling lunatics who shout about riots, gasoline, and chicks, these muthas really deliver the goods!

SONS OF CYRUS | trigger-happy

Eine neue Platte der Schweden ist immer wieder gerne gesehen, zumal Sons Of Cyrus bislang auf keinem einzigen ihrer Tonträger auch nur ansatzweise enttäuscht haben! Und da bildet "Trigger-happy" auch keine Ausnahme! Alles in allem gibt es acht neue, wieder von Hellacopters

Produzent Chips Kiesbye aufgenommene Songs, die nahtlos an die beiden Vorgänger Alben "Rock & Rollercoaster" bzw. das gleichnamige Debüt anschließen. Als größter Trümpf kann man sicherlich Sänger Loverboy sehen, der mit seinen klaren, unheimlich souligen Vocals den Sound der Band prägt, aber auch die anderen Söhne sind nicht von schlechten Eltern! Zwischen nach vorne powerndem, straighten Garage Punk mit leichtem Sixties Flair und höllisch rockenden Raw Power Riffs treiben sie Songs wie "Promised land", "She lived on the edge" oder "It is true" immer druckvoll nach vorne. Alle Stücke haben diesen unterschweligen Radio Birdman Vibe und wer die Sons Of Cyrus bislang noch nicht kennt, sollte spätestens jetzt die Gelegenheit nutzen!!

STILETTO BOYS | Rockets and bombs

Wer die Stiletto Boys nach der sehr powerpoppigen Screaming Apple 7" abgeschrieben hatte, darf sich beruhigt wieder zuschalten. Der Sound ist natürlich nicht so unterproduziert wie auf der genialen Debut 7" "8 track", stattdessen haben die 4 auf "Rockets & bombs" genau die goldene Mitte zwischen den frühen, rauhen 4 Spur Aufnahmen und den sehr glatten späteren Songs gefunden. Noch dazu klingen sie hier wieder original nach ihren gro?en Vorbildern Saints, Radio Birdman, Buzzcocks, Joneses, ... Sprich: allerbestes vor Melodien strotzender End 70er Punk Rock mit gro?em Popanteil. 12 hymnische Perlen, incl. einer neuen Version von "8 track" und dem Radio Birdman Cover "455 SD". Auf der cd gibt es zusätzlich noch alle Songs der bislang veröffentlichten 7"es, sowie 2 Stücke, einer bislang noch nicht veröffentlichten 7".

STILETTOS, THE | 12 cuts

The Stilettoes are a Utrecht based 3-piece band consisting of lead singer Ned Harris, drummer RockstarBarry and guitar swinger extraordinaire Drs. Hook. They paid their dues, learned to play the blues and put on their rockin' shoes. The Stilettoes share a passion for fucked up, noisy as hell punk rock 'n' roll. They're loud, fast, raw, and eager to raise hell and still manage to maintain that overall make-you-feel-good sentiment. It's groovy, high-energy garage rock 'n' roll. RockstarBarry: "we love to play and one-day this planet and its crazy shenanigans will come to a stop. The Stilettoes want to be on the soundtrack to the next Big Bang, after which people will be dancing again. Savagely, around huge campfires, beating homemade drums with human bones, screaming for what they need and not what they want..." Up Yours' Magazine from Belgium called them: "way more threatening and horrifying than hundreds of sleeping Al Quajda terrorist cells." But they're nice guys with girlfriends, who love their parents. They come out like the mutated baby of a menage à trois between The Ramones, The Pagans and The Rolling Stones, born and bred on a steady diet of beer, marihuana and love gone bad...

TIP TOPPERS | Packed to the rafters

Es ist schon ein Phänomen warum gerade die ganzen Skandinavier eine hervorragende Band nach der anderen hervorbringen. Nicht ganz ohne Bedeutung dürfte allerdings die Tatsache sein, daß da oben (speziell in Oslo!) musikalisch absolute Inzucht herrscht! Bei den Tip Toppers (bekannt von einer Sneakers 7" bzw. dem "Popgun 2000" Sampler auf Screaming Apple) musizieren beispielsweise Leute von den Yum Yums, Gluecifer und Kwyt Kings, die unter musikalischer Leitung eines ansonsten unbeleckten Sängers & Songwriters elf absolut Hit-verdächtige Stücke eingespielt haben. Herausgekommen ist dabei eine Mischung aus den super eingängigen Hymnen der Yum Yums, schnellen, knackigen Psychotic Youth Rockern und treibendem, Orgel dominiertem Sixties Power Pop. Dementsprechend ist "Packed to the rafters" ein Non Stop Tour de Force Ritt durch das Power Pop Punk Universum und eine verdammt geniale Platte.

TOKYO SEX DESTRUCTION | 5th avenue south

Die Spanier gehen ihren Weg konsequent weiter, immer noch eine explosive Mischung aus R&B, Punk und Soul, die in halsbrecherischem Tempo aufgeführt wird. Gerade noch haben sie bei MC5 und Sonics verweilt, schon sind die Jungs bei 60s Pop und 70s Sound gelandet und mischen psychedelische Klänge à la Hendrix, Animals oder Kinks unter. Diesmal begleitet von einem ganzen Orchester von Percussion, Handclaps, Orgeln, Bläsern und div. Background-Sängerinnen... zumindest live, purer Sex! Acht neue Songs, dazu die fünf der "big red box" MCD (die Vinyl Version hatte sieben), CD kommt zusätzlich mit zwei Clips zu "the bridge" und "two years ago" - die wunderbare Alternative zu King Khan bzw. Make-Up, aber es gibt ja schlimmeres was man über Bands sagen kann.

TRASH BRATS | American disaster

This is the first TRASH BRATS vinyl full length ever! It's a classic of America's best kept secret. 12 originals, 7 songs from their latest American Disaster Album (Rocket To Heaven, Imitation Generation, Nice Girl to Visit, Feeding the Mosquitos, Hungry Eyeballs, Must be the Cocaine and Who Put the Words), two songs from Out of the Closet Album (Eatin' Crow and No Jangle Thrust) and three classic hits of their self titled debut album (Bubblegum Girl, Don't Wanna Dance, Suicide Dedication Imagine an amped-out faster paced NEW YORK DOLLS cacophonously crossbreed with louder LAZY COWGIRLS and some strong worshipping the power pop of the CHEAP TRICK and the snotty DEAD BOYS and you have the sleazy sonic sound of THEE TRASH BRATS! Hailing since 15 years wild at heart from the motor city rawk mantle, those Detroit loveable losers keep their undisputed status of US glam punk heroes with utterly catchy hooks, sarcastic sense of humor and killer songwriting - always keeping their music on the same level. While the boring generation of today seems braindead they perform these days with CHEETA CHROME, preparing a new album for late 2002 and American Disaster just were mentioned at the Detroit Music Awards as Best Rock Album and the Brats as Best Rock Band, Hell - that must have put a smile on them, still drinking & driving through ole midwest suburbs in their half wrecked old cars and enjoy dressing in crazy women's outfits. Thee TRASH BRATS are pinned at my heart for their intense rock and roll, their look, their fun and their way of life.

Abschiedskonzert der Norwger, die ihre Tour mit Nashville Pussy auf der Höhe ihrer Karriere, aufgrund von "mental problems" ihres saengers Hank beenden mussten. Hier gibt es alle ihre alle die Hits vom "Ass Cobra"- und vom "Apocalypse Dudes"- Album, sowie viele andere Songs, aufgenommen in Hamburg und bei ihrem letzten Konzert in Oslo. Das Beste hier ist die unendlich lange Version von "I got erection", bei der Hank die letzte Arschrakete zuendet. Die Doppel-LP im Klappcover hat 5 Songs mehr, darunter "Bad Mongo" und "Hobbit Motherfuckers". Gute Soundqualitaet, auch wenn Hank bereits aus dem letzten Loch pfeift.

URRKE T & THE MIDLIFE CRISIS | Ask Not What You Can ?

Members of Hellcopters, Backyard Babies, Maggots and Maryslim declare their love to late classic 70s punkrock. And I must confess this Stockholm project succeed with these superb covers of "The American In Me" (The Avengers), "Center Of Lies" (Warheads) and The Users' "Sick Of You". The last song is probably my fave on the "Killed By Death vol. 1" comp, and these Swedes totally do justice to the track. Of course the production is slicker, there's now a twin guitar attack, but the essence is kept intact.

V/A | Countdown on christmas!

This is like a dream coming true. It took nearly 18 months to get this compilation and its bands together. Now 15 of my favorite bands are banned on this compilation with nearly all exclusive tracks. Just have a look on the band names and you will be sure that this comp is a must have for everybody's christmas time. I'm not only proud about getting these bands together, it's also the fantastic artwork by Darren Merinuk that makes this record the perfect christmas gift to myself. Three Kings Records started with a christmas 7" in 2001, continued the series in 2003 and now there's this totally rocking album in 2004. I love it!

YA BASTA | Toujours debout

Drei Jahre nach dem Debut ??Lucha Y Fiesta?? endlich der zweite Longplayer der französischen Redskins. Ganz im Stile der ersten Albums präsentieren Ya Basta 14 neue tanzbare Ska-Hits. In ihrer ganz eigenen Mischung aus schnellem modernen Ska kombiniert mit stellenweisen Rückgriffen auf traditionelle Elemente und Einflüsse aus dem Punk-und Reggae/Rocksteady-Bereich. Dazu kommen revolutionäre französischsprachige Texte voller Wut auf die herrschenden Verhältnisse und mit dem beständigen Glauben und Kämpfen um Veränderungen. Ein extrem schweißtreibender, tanzbarer Cocktail aus politischen Inhalten und fröhlichem Ska, der von der ersten Sekunde ab zündet und über 40 Minuten lang Vollgas gibt. Die Revolution ist endlich wieder tanzbar und Ya Basta liefern mit ??Toujours Debout?? definitiv ein Meisterwerk ab. Die LP kommt mit hübschem Artwork und bedruckten Innenhüllen inklusive aller Texte und Fotos.
